

Freestanding aluminium junior goal Ø90mm. Anchorage included.
The corner joint is welded on the uprights.

Height	Length	Depth	Cross-section		Weight/unit	Material	Colour
1.83m	3.66m	Top : 0.80m Bottom : 1.50m	Round	Ø90mm	57kg	Aluminium	White powder-coated

STRENGTHS

- 1. Reinforcement bars are designed to have a perfect net tension
- 2. 3.5mm profile thickness for a better shock resistance and durability
- 3. 4 fixation points provide a better support than a standard reinforcement bar
