

Freestanding aluminium junior goal Ø90mm. Anchorage included
The corner joint is welded on the uprights. Crossbar shortened to 5.8m.

Height	Length	Depth	Cross-section		Weight/unit	Material	Colour
2.13m	6.40m	Top : 0.80m Bottom : 1.50m	Round	Ø90mm	75kg	Aluminium	White powder-coated

STRENGTHS

1. Reinforcement bars are designed to have a perfect net tension
2. 3.5mm profile thickness for a better shock resistance and durability
3. 4 fixation points provide a better support than a standard reinforcement bar
4. Short crossbar allows to transport the goal in a 20ft container
