

International Mobile Goal

Designed & made in NZ to FIH regulations & specifications for international competitions.

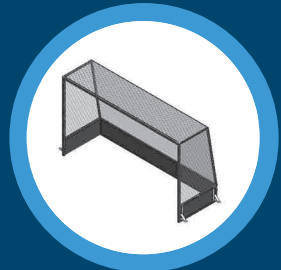

- Suitable for synthetic and turf fields.
- No exposed internal frames & free hanging nets to reduce ball rebound.
- Made from steel to reduce denting from ball impact & improved life.
- HotShot unique impact resistant rubber mounted on 18mm heavy duty ply backboards.
- Optional upgrade to steel/composite rubber backboards.
- Easily moved when tipped back on rubber wheels.
- Galvanised for long life with powder coated white opening.

Mobile Deluxe Goal

Robust & portable, our most popular hockey goal.

- Suitable for synthetic & turf fields.
- Telescopic handles & rubber wheels for easy movement by one or two people.
- High quality 18mm backboards with optional upgrade to impact rubber backboards.
- Galvanised for long life.

Standard Mobile Goal

Robust & highly maneuverable on four castors.

- Recommended for synthetic grass.
- High quality 12mm backboards.
- Lighter weight and ideal for regular movement on braked casters.
- Hot dipped galvanised for long life.

HOCKEY GOALS

All units come standard with heavy duty 3mm braided twine nets, & easy to assemble kitset form with assembly instructions supplied.

OPTIONAL IMPACT RESISTANT BACKBOARDS:

HotShot uses special formulation impact resistant rubber for our new hockey backboards. The rubber is moulded to high quality steel boards to form an extremely strong and durable unit.

Upgrade to steel, rubber and foam or plywood only.
