

LINE MARKER

HotShot Grass-marker - 50mm wheel transfer unit

The ideal paint applicator for grass sports grounds with no blocked spray nozzles.

Light and easy to use with a unique paint transfer system that lays down a clean line - while preventing grass transfer back to the reservoir. Robust steel construction HotShot Grass-marker delivers a professional result.

Key Features

- marking wheels easily removed for cleaning, no special tools required
- removeable plastic paint reservoir for easy cleaning
- anti-rust 50mm aluminium marking wheels
- suitable for any sports ground
- handle lifts out for compact storage

Optional Extras

- adjustable lane marking guide for athletic tracks
- Pitchmarker, Fastline or Blinder paint
- 'HotShot Clean' - ideal for removing spillages from machinery
- 'Plifix' – linemarking guides

LINE MARKER PAINT

Whether it's for traditional wheel-to-wheel machines or the ultimate in spray machines, we supply a range of eco-friendly concentrated marking liquids that have been designed and developed to give ultimate performance and ease of use.

No mixing required, easy cleaning with water saving time and mess. High dilution rates keep the price per pitch low, whilst retaining a quality finish.

Pitchmarker

- ideal for spray machines or wheel to wheel machines
- supplied in 20 litre bucket or 200 litre drum
- available in white and a range of colours
- dilute between 2:1 and 4:1 for optimum performance
